

AUSCIVIL WA PTY LTD
&
REMOTE CAMPS AUSTRALIA

CAPABILITY STATEMENT

2023

EXECUTIVE SUMMARY

Auscivil WA & Remote Camps Australia are family-owned businesses who have a diverse skillset across Road Transport, Remote Camps and Civil Construction. Auscivil has been operating since July 2000 with the current ownership structure commencing in August 2021. Initially a civil construction company, Auscivil has diversified its activities to include Road Transport and Remote Camps by strategic Personnel engagement. With the right people in the right places, all facets of the business have grown exponentially which has resulted in a well-rounded client-focused business model that delivers on risk mitigation and economic performance for both our clients and ourselves.

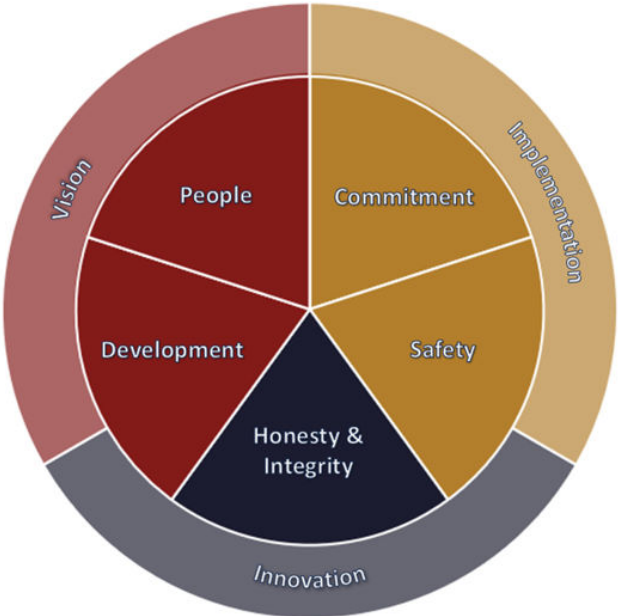

Remote Camps Australia is the newest division in our Group. RCA is passionate about providing end to end remote camp solutions and our history of repeat customers is a testament to the services we provide. It is also a market that we see great scope in expanding. Auscivil WA & Remote Camps Australia is committed to responsible management practices that minimise any adverse health, safety, or environmental impacts, and enhance benefits associated with its activities, products and services to provide a safe working environment.

We pride ourselves on being competent contractors with an obligation to manage our client’s economic position when working with us. We understand the importance of key measurables and deliverables and make it our business to help our clients achieve their objectives.

Core Values

Vision, Innovation, and Implementation are the strategic goals of our Core Values. Our values are the foundation of our business and the guiding principles behind every decision made.

AusCivil WA Core Values	
Development	Change is inevitable. We have a keen ability to change and grow in the face of an ever-changing economic climate. We embrace it and apply it to our business every day.
Commitment	We commit every day to helping our clients and our people achieve their goals and objectives. We commit to quality in our service and support at every given opportunity.
Honesty & Integrity	Building strong relationships through honesty and transparency and leading by example. We show integrity in all that we do and are committed to our high ethical standards.
People	Our People are at the heart of everything we do, and as a result, they are at the heart of our values. Our commitment to people includes being mindful and prioritising respect in every interaction.
Safety	Safety is good business. We feel a personal responsibility for the well-being of everyone working for us and with us. Our safety focus is at the forefront of every decision we make so that every person we interact with, gets home safely.

Key Personnel

Benjamin O'Shea, Managing Director

Our Managing director Ben comes with a wealth of knowledge spanning multiple industries including Transport, Mining and Construction. A Surveyor by trade, Ben has had the opportunity to work up close across all levels of business and applies this expertise to the varying landscapes of Auscivil WA. Ben offers a wide range of experience in strategy, leadership, planning and management and has a passion for developing and maintaining strong business practices to continually achieve optimum business performance.

Matthew Riches, Operations Manager

Matthew has been involved in remote communities of WA work for most of his life. Matt's involvement with remote Australia is generational. Travelling often with his own father doing similar works, his knowledge of various remote regions is extensive and his commitment to doing works that are challenging and complex has allowed him to build a rare insight that not many can match. Matt applies this knowledge to all facets of Auscivil WA and RCA which has resulted in proven methodologies being implemented across the business to not only get the job done, but to get it done right.

Matthew Deane-Spread, Transport Manager

Matthew has a long history in the transport industry which has garnished him with extensive knowledge and experiences across most of Australia. His Grandfather, Father and himself are all high calibre drivers with significant involvement in the industry. Matthew is a dual trade mechanic, as well as refrigeration mechanic.

Hanlie Nell, Camps Manager

Hanlie leads our Camps management division and manages all aspects of the day-to-day operations of our remote camps. One of the points of difference Auscivil WA aspires to is the quality of the food and housekeeping, a strong focus of which is under the direct control of Hanlie and her team.

Cameron Ashby, Camp Infrastructure Manager

Cameron oversees all aspects of Camp infrastructure installation / commissioning and subsequent ongoing maintenance. With a specialty team of electricians, plumbers, carpenters, and crane operators at his disposal, he has created a 'one-stop-shop' for construction, commissioning, and maintenance of camps.

Road Transport

With a long history in road transport and a team that boasts over 100 years combined experience, Auscivil WA can facilitate a vast scope of transport works Australia wide. Auscivil WA has significant experience in remote transport works and have a robust understanding and appreciation for the different environmental factors that can affect the vastly different regions of Australia.

We currently service a broad range of clients across various industries including Mining, Agriculture, Private enterprise and Government with the freight being as varied as the Clientele.

We pride ourselves on our ability to meet the diverse needs of our clients by providing exceptional customer service and the highest standard of transport and logistics management. We do this effectively, efficiently, and most importantly, we do it safely. We have committed to achieving our clients' expectations without compromising on safety ensuring our clients freight is delivered securely, on time and our Team are delivered safely home.

Remote Camps

Our remote camps are an integral part of our business and is comprehensive and multi-faceted. We have a dedicated team who provide end-to-end solutions for remote camps from Mobilisation through to Installation / Commissioning and subsequent Management and Maintenance.

With a focus on providing a 'zero footprint' methodology, all elements of a proposed camp are carefully considered and measured to ensure the tailored camp provided is fit for purpose and appropriate not only for our clients' needs but also their required location, and the environment. We pride ourselves on our holistic approach in ensuring all key deliverables are met.

Auscivil cover:

- Compliance – Permits, relevant approvals from local government bodies, Dept of Health applications.
- Mobilisation – with a fleet of Prime Movers in our Transport division, we are geared to transport all camp infrastructure.
- Installation – includes the loading / unloading of all Camp infrastructure, ancillary equipment.
- Commissioning – including all certified trades i.e., Plumbing, Electrical with relevant certifications provided.
- Approved septic system installation / commissioning.
- Camp Management – covering the day-day-operations of the Camp. This includes all Catering, Cleaning, Camp maintenance.
- Decommissioning at cessation of camp.
- Demobilisation at cessation of camp.
- Site rehabilitation.

Auscivil and RCA have extensive experience with the operation of remote camp facilities which can be evidenced across our current operations. We have provided remote camp solutions for a plethora of clients but predominantly Main Roads Western Australia across multiple regions and sites, Fulton Hogan, Stabilised Pavements of Australia and Fortec Australia.

Civil Construction

Civil Construction is where it began for Auscivil WA and to this day is still an important part of our business. Working predominantly with Main Roads Western Australia in the Kimberley region, we provide civil construction equipment and operators to complete not only scheduled Main Roads works in remote areas, but also emergency response works as required. More recently, our emergency response team have assisted with the 2023 Flood response as well as various fire responses for DFES.

With a focus on restoration and rehabilitation, our works can be evidenced in remote regions like Gibb River Road and Drysdale Station as well as Fitzroy Crossing. Our team of qualified operators have extensive experience in harsh operating conditions and provide an exceptional service to get the job done.

We provide Operators and Equipment to complete a range of civil construction functionalities including:

- Side Tippers
- Graders
- Loaders
- Excavators
- Rollers
- Watercarts
- Float movements
- Traffic Management

The quality of our service along with our solid reputation and our reliability has meant that our team are engaged year after year to continue to assist in the civil works of the remote Kimberley region. Our ability to adapt and work with the diverse operating conditions means we provide a workforce that is not easily matched.

Thankyou

On behalf of the entire Auscivil WA and Remote Camps Australia teams, we would like to take this opportunity to thank you for your time and consideration.
